

CHANGE OF PROGRAM

Requests to change your program need to be submitted prior to the add/drop deadline to go into effect for the current semester. Requests made after the add/drop deadline for a semester will be processed at the end of the semester and the new program will be in effect the following semester. If the following semester is a new academic year, the student will matriculate into the program for the next academic year.

Shared curriculum programs – students will remain in the academic catalog year they matriculated into their original program.
