

# COMMUNICATION (COMM)

---

**COMM1000 | Communication in Context | Lecture (3 Credits)**

For the better part of every day, technical professionals rely on communication to get work done efficiently and effectively. In this course, you will develop the communication skills critical for successful problem solving in authentic contexts. You will analyze the situation surrounding a particular message and learn to tailor content, language, structure, and design choices to an intended audience.

**General Education:** Communications

**COMM1030 | Project Communication | Lecture (3 Credits)**

In a client-oriented business environment, effective communication is crucial for project success. This course builds your toolkit with essential strategies for effective communication in project management. Using industry-standard resources, you'll learn to create clear communication plans that align and motivate your team, respond to stakeholder expectations, and foster a culture of respect and inclusion. Whether you aim to lead innovative initiatives, coordinate cross-functional teams, or contribute to highstakes projects, strong project communication will set you apart in the competitive business landscape.

**General Education:** Communications

**COMM1150 | Interpersonal Communication | Lecture (3 Credits)**

Analyze the process of interpersonal communication as a dynamic and complex system of interactions. Integrate interpersonal communication theory into work, family and social relationships. Apply fundamental tools needed to provide quality customer service. Decision making, problem solving, and managing customer service processes are emphasized.

**General Education:** Communications

**COMM3000 | Professional Communication | Lecture (2 Credits)**

Professional communication in all forms: researching, selecting, synthesizing, and documenting sources; business e-mail and letter writing, as well as public speaking and power point presentation for application in a management setting.
