

STUDENT RIGHT TO KNOW

Student Achievement

Dunwoody College of Technology, in an effort to provide institutional transparency to our stakeholders, Dunwoody provides institutional statistics (<https://dunwoody.edu/about/accountability/student-achievement/>) outlining retention rates, graduation rates, placement rates, student to faculty ratio, and other data which demonstrates the characteristics of the stakeholders we serve and the quality of service Dunwoody provides.

Federal law requires colleges and universities to provide certain information to current and prospective students and their parents. In order to facilitate that disclosure, Dunwoody provides a comprehensive list of Student Right to Know information (<https://dunwoody.edu/about/accountability/student-right-to-know/>).
