

FIELD TRIPS/BUSINESS INDUSTRY VISITS/GUEST SPEAKERS

Dunwoody is known for its hands-on, project-centered model of learning and their strong ties to industry. With this approach to learning, we need to provide evidence of our relationships to our accrediting bodies.

When scheduling visits, trips, and guest speakers, faculty members need to complete a Business Industry Site Visit form, found in the Faculty Filing Cabinet on LaunchPad. If an overnight stay is involved, each student must also complete a Travel Agreement Form, which should be submitted to the Dean of Student's office for record keeping.

Please contact your dean or director with any questions about organizing off-campus activities, or hosting on-campus guest speakers.
